Date

**\*explanation provided on reverse**

## New Registrant's Clinical Experience Reporting Form -

### IMPORTANT INFORMATION

Relevant Policies: *New Registrant's Policy (Section H, Registrant Binder)*  
*Guidelines to the New Registrant's Policy (Section I, Registrant Binder)*

New registrants are required to fulfill the requirements of the *New Registrant's Policy*. Conditions are placed on all new registrants' certificates until these requirements are met.

To meet the requirements of the *New Registrant's Policy*, a new registrant must:

1. Work within an established practice for a period of at least one year,
2. Attend births with a general registrant until a minimum of 30 births as a primary midwife and 30 births as a second midwife are completed

The New Registrant's Clinical Experience Report Form (see reverse side) is used by the College to verify that you have met the clinical requirements of the *New Registrant's Policy*. **Please file this form for future use.** Once you have attended the minimum number of births required by the *New Registrant's Policy*, please complete this form and mail or fax it to the College. Make sure you keep a copy for your records. When the College has received the completed form, you will be sent an acknowledgement and you may then begin attending births with another new registrant or a second attendant without restrictions. However, as a new registrant, you are still required to work within an established practice for a period of one year.

On the anniversary date of your registration, provided the College has received your completed New Registrant's Clinical Experience Reporting Form, your registration class will automatically be changed from General with Conditions to General. When this occurs, you will receive notification from the College.
